Resume

Anastasiia Voronina

Date of birth: 07.02.2003

Specialization / Profile:
Media Communications,
Applied Data Analysis

Citizenship:
Russia

Education

2021-2025,
HSE University, Bachelor's degree in Media Communications

2024-2025,
Additional qualification:
Intellectual Data Analysis

Work Experience

2024-present
Company: Aviasales

Position: Partner Solutions Analytics Specialist

Developed methods for automating data collection for regular metrics monitoring;
Worked on data preprocessing for subsequent visualization;
Participated in research into the company's additional monetization potential

Skills

Soft Skills

High learning ability, teamwork skills, stress tolerance, critical thinking skills

Hard Skills

- English (B2+)
- Python (basic level)
- Python for data analysis: Pandas, Numpy, Matplotlib, Scikit-learn, Plotly, Pytorch
- Classic Machine Learning
- Deep Learning (LLM)
- SQL (advanced)
- Jira, Confluence, Tableau, Redash, Power BI, MS Office
- Mathematical statistics and probability theory
- HTML, CSS
- Experience with HuggingFace
- A/B testing
- Data parsing using Python

Areas of Interest for Development

I'm interested in quantitative analytics and would like to gain a better understanding of the mathematics of computational systems. I also want to develop my skills in machine learning, focusing on time series analysis, and apply my knowledge to the fintech sector.

Courses & literature

2024,
MTS Fintech School of Analytics

"Fundamentals of Statistics," Bioinformatics Institute (on the Stepik platform)

2025,
HSE University, Data Culture, Beginner's Level

2025, HSE University, BrandAnalytics Analytics Course

2026, Innopolis, Bachelor's School,
Educational Track: Artificial Intelligence and Data Engineering

Thesis Topic

The final thesis included a comparative analysis of three pre-trained language model architectures-GPT-2, BERT, and T5-for generating short news texts.

As a result, the models were analyzed, the strengths and weaknesses of the architectures were identified, and the quality of the news text was assessed from the perspective of fundamental media theories.

Additional information

Category B driver's license (manual transmission);
Graphic design skills using Adobe and Figma

Hobbies: sports, language learning, filmmaking
